

## **SAFETY DATA SHEET**

Date of issue/ Date of revision : 2010-08-06.

# 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Identification of the substance or preparation				
Product name	: Kährs Spray Cleaner 0,75L			
Product code Use of the substance/preparat	: 710529 ion			
Product use	: Cleaning agent.			
Company/undertaking identific	cation			
Manufacturer	: Arboritec AB Olof Wijksväg 9 444 65 Jörlanda SWEDEN Tel: +46 (0)303 56 330 Fax: +46 (0)303 56 332 post@arboritec.com			
e-mail address of person	: jorgen.kaldemark@arboritec.com			
number of the company	<ul> <li>Arboritec AB, +46 (0)303 56 330</li> <li>112</li> </ul>			

### 2. HAZARDS IDENTIFICATION

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments. **Classification** : Not classified.

See section 11 for more detailed information on health effects and symptoms.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### 4. FIRST AID MEASURES

First aid measures		
General	<ul> <li>In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice.</li> </ul>	
Inhalation	<ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.</li> </ul>	
Skin contact	<ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do not use solvents or thinners.</li> </ul>	
Eye contact	<ul> <li>Check for and remove any contact lenses. Immediately flush eyes with running water for at least 5 minutes, keeping eyelids open.</li> </ul>	
Ingestion	: If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do not induce vomiting.	
See section 11 for more detailed information on health effects and symptoms.

----------------------------------	-------------	-------------	-----------

### 5. FIRE-FIGHTING MEASURES

Extinguishing media	: Recommended: alcohol-resistant foam, CO <sub>2</sub> , powders, water spray.
Extinguishing media not to be used	: Do not use water jet.
Special exposure hazards	: Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. Appropriate breathing apparatus may be required. Cool closed containers exposed to fire with water. Do not release runoff from fire to drains or watercourses.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### 6. ACCIDENTAL RELEASE MEASURES

Due to the organic solvents content of the preparation:

5		
Personal precautions	:	Exclude sources of ignition and ventilate the area. Avoid breathing vapor or mist. Refer to protective measures listed in sections 7 and 8. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13).
Environmental precautions	:	Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers, or sewers, inform the appropriate authorities in accordance with local regulations.
Methods for cleaning up	:	Preferably clean with a detergent. Avoid using solvents.

Note: see section 8 for personal protective equipment and section 13 for waste disposal.

### 7. HANDLING AND STORAGE

Handling	<ul> <li>Due to the organic solvents content of the preparation: Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapors in air and avoid vapor concentrations higher than the occupational exposure limits.</li> <li>In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard.</li> <li>Keep container tightly closed. Keep away from heat, sparks and flame. No sparking tools should be used.</li> <li>Avoid contact with skin and eyes. Avoid the inhalation of dust, particulates, spray or mist arising from the application of this preparation. Avoid inhalation of dust from sanding.</li> <li>Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.</li> <li>Put on appropriate personal protective equipment (see section 8).</li> <li>Never use pressure to empty. Container is not a pressure vessel.</li> <li>Always keep in containers made from the same material as the original one. Comply with the health and safety at work laws.</li> </ul>
Storage	<ul> <li>Store in accordance with local regulations. Observe label precautions. Do not store below the following temperature: 5°C (41°F). Store in a dry, cool and well-ventilated area. Keep away from heat and direct sunlight. Due to the organic solvents content of the preparation: Keep away from sources of ignition. Keep away from: oxidizing agents, strong alkalis, strong acids. No smoking. Prevent unauthorized access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.</li> </ul>
8. EXPOSURE CON	TROLS/PERSONAL PROTECTION

**Occupational exposure limits** : Not available

**Exposure controls** : Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapors below the OEL, suitable respiratory protection must be worn.

**Occupational exposure controls** 

710529 Kährs Spray Cleaner 0,75L

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory system	<ul> <li>If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.</li> </ul>
Recommended	: particulate filter, P2-P3
Skin and body	<ul> <li>Personnel should wear antistatic clothing made of natural fibers or of high- temperature-resistant synthetic fibers.</li> </ul>
Hands	: Wear suitable gloves. Recommended: Silver Shield gloves. The recommendation for the type or types of glove to use when handling this product is based on information from the following source: Composition/information on ingredients. breakthrough time: Please contact your glove supplier to get the information.
	Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.
Even	<ul> <li>Use eafety eveneer designed to protect against aplach of liquida</li> </ul>

#### Eyes

: Use safety eyewear designed to protect against splash of liquids.

#### Environmental exposure controls

Do not allow to enter drains or watercourses.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES **Physical state** : Liquid. Color : Colourless **Flash point** : Closed cup: >100°C (>212°F) [ASTM 6450] : 0,995 g/cm<sup>3</sup> **Relative density** : 0 % **VOC content** 0 (g/l). Dry content (%) : 10 **10. STABILITY AND REACTIVITY Conditions to avoid** : Stable under recommended storage and handling conditions (see section 7). When

	exposed to high temperatures may produce hazardous decomposition p	roducts.
Materials to avoid	Keep away from the following materials to prevent strong exothermic real oxidizing agents, strong alkalis, strong acids.	ictions:
Hazardous decomposition products	Decomposition products may include the following materials: carbon mo carbon dioxide, smoke, oxides of nitrogen.	noxide,

### **11. TOXICOLOGICAL INFORMATION**

#### **Toxicokinetics**

There is no data available on the preparation itself. The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified for toxicological hazards accordingly. See sections 3 and 15 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

### **12. ECOLOGICAL INFORMATION**

There is no data available on the preparation itself. Do not allow to enter drains or watercourses.

The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is not classified as dangerous for the environment.

### 13. DISPOSAL CONSIDERATIONS

Do not allow to enter drains or watercourses.

Dispose of according to all federal, state and local applicable regulations.

European Waste Catalogue : 08 01 12 (EWC): **Hazardous waste** 

: No.

### **14. TRANSPORT INFORMATION**

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
