

**ForceField®**  
**Restor-It™**  
*Furniture Polish for Fine Wood*

- **Restores Oils & Luster**
- **Contains a Special High-Gloss Polymer**
- **Removes Dust, Dirt & Allergens**
- **Prevents Premature Aging of Wood**
- **No Waxy Buildup**
- **Use on Oak, Walnut, Mahogany & Teak and all Fine Cabinetry and Woodwork**

**OVERVIEW**

**Restor-It™** is a revitalizing treatment for fine wood surfaces. It restores oils to wood surfaces without leaving a waxy buildup, and imparts a high gloss protective coating. In addition to acting as a wood treatment, **Restor-It™** removes dirt, dust, allergens, fingerprints and smears. Regular use helps to protect wood surfaces from premature aging, cracking, and discoloration.

**HOW & WHY RESTOR-IT™ WORKS**

In addition to the highly refined oils that penetrate into the wood to revitalize the surface, **Restor-It™** contains a specially developed organosilane polymer that imparts a high gloss protective coating to the finish. The combination of these materials results in a wood treatment that effectively cleans, protects, shines, and adds life to all types of fine wood furniture and accessories.

**APPLICATIONS**

**Restor-It™** may be applied either directly onto the surface to be polished, or it may be applied onto a clean polishing cloth. Once applied to the surface, a polishing cloth should be used to rub **Restor-It™** into the surface, moving along the grain of the wood. In the event of a preexisting waxy buildup, allow the polish to remain on the surface for up to 20 minutes to aid in its removal. This should be followed by the use of a second clean cloth to polish out the surface, remove any excess product, and impart a glossy finish. **Restor-It™** is suitable for use on all types of fine wood furnishings and accessories.

**AVAILABLE IN THE FOLLOWING SIZES**

<b>HMIS Health:</b> 1 <b>Fire:</b> 0 <b>Reactivity:</b> 0	<b>Appearance:</b> Creamy White Emulsion
<b>pH:</b> 7.5 to 10.5	<b>Odor:</b> Mild
<b>Solubility:</b> Water Emulsifiable	<b>Specific Gravity:</b> 1.00 +/- 0.02 (8.34 lbs/gal)
<b>Boiling Point:</b> 100°C	<b>Chemical Family:</b> Oil Emulsion
<b>Storage:</b> Above 0°C, Below 50°C	<b>Caution:</b> Keep out of the reach of children.
<b>Regulatory:</b> Not Regulated	<b>Caution:</b> Keep away from eyes.
