

# Mira Hone

**To Hone, Remove Light Scratches, Etch Marks in**

- Marble
- Travertine
- Terrazzo
- Limestone

**Uses**

- Floors
- Restrooms
- Showers
- Kitchens
- Counters

**Special Features**

- Easy-to-Use
- Non-Acid
- Effective
- Non-Coating
- Can Be Used w/Lippage
- Never Yellows
- No Stripping
- Cost Effective

**PRODUCT DESCRIPTION**

**KEEP OUT OF REACH OF CHILDREN.** Mira Hone is a unique, natural, non-wax powder compound for honing and deep cleaning marble, travertine, limestone and terrazzo. Mira Hone can effectively be used on floors with "lippage" to remove scratches, etch marks, light weight traffic patterns. Mira Hone can be used to prepare the stone surface prior to using one of the Miracle Sealants final polishing products. The combination offers an effective way to maintain the natural beauty of the stone, while providing a durable, slip resistant surface.

**Sample Testing**

Due to the differences of each material, several inconspicuous test patches should be completed to assure maximum performance. **User must determine suitability of the product for their intended use.**

**Protect Neighboring Surfaces**

Always protect neighboring surfaces including wood, metal, carpet, baseboards, fabric, landscaping, etc.

**APPLICATION INSTRUCTIONS**

**Read the entire label and SDS/PDS before starting.**

- a. All previous applied coatings and/or waxes must be removed using **Mira Strip** or **Finish Sealer Stripper** as directed.
- b. Apply a small amount of water to the stone surface. Work in approximately 25 - 35 square feet at a time. Do not work large areas.
- c. Sprinkle a handful of **Mira Hone** onto the wet surface (approximately 5 ounces per 25 square feet).
- d. Buff the **Mira Hone** with a **Marble Master** floor machine creating a slurry with a natural hair brush or red nylon pad for approximately 10 minutes per 25-35 square feet.
- e. Move slurry aside with a squeegee. Check for desired results. Work longer if necessary. Move the slurry to the next section and add **Mira Hone** and water as needed. **DO NOT ALLOW Mira Hone TO DRY ON THE SURFACE.**
- f. Remove excess slurry with a wet vacuum. Damp mop and let dry.
- g. For a higher polish, the surface is now prepared for one of the polishing compounds: **Marble Conditioner** or **Mira Dust**.

**Heavy Duty Cleaning:** Use **Phosphoric Acid Cleaner**, **HDAC** or **Liquid Poultrice** as directed.

**Light Cleaning:** Use **Tile & Stone Cleaner**, **Limestone/Travertine Soap**, **Grout Cleaner**, or **Counter Kleen** as directed.

**Coverage**

Coverage will vary depending on density, porosity, texture, surface absorption, weather, time solution left on surface and application methods. Used as directed, **Mira Hone** will cover approximately 80 - 115 square feet per pound (7 - 11 square meters).

**Water, Stain & Slip Protection**

To protect cleaned area from future soiling and staining and increase static coefficient of friction, we recommend applying the appropriate **Miracle Penetrating Sealer/Impregnator**.

**MAINTENANCE**

How often **Mira Hone** is used will depend on the surface and the traffic it is exposed to on a day-to-day basis. For ongoing maintenance instructions please refer to **Miracle Sealants Care Guide**. Refer to the **Miracle Sealants Product Recommendation Chart** for specific product recommendations.

**Storage**

Store **Mira Hone** in the original upright container, properly sealed and unmixed. Stored at 77° F (25° C), **Mira Hone** will have a shelf life of 12 months. Do not allow to freeze.

**Technical Support**

For additional technical support, contact Miracle Sealants Company at 1-800-350-1901
