- **Brightens and Preserves Finishes**
- **Leaves no Sticky or Dulling Residue**
- **Safe for Hardwoods (with polyurethane finishes), Laminates, Ceramic and Vinyl Flooring**
- **No Need to Rinse**
- **Removes scuffs, dirt and Grease**

OVERVIEW

Shaw® R2x Hard Surfaces Flooring Cleaner Concentrate, when diluted, is specially formulated for cleaning all types of hard surface flooring including Hardwoods (with polyurethane finish), Ceramics, Laminate and Vinyl Flooring. It is ideal for removing dirt, grease, and scuffs. Leaves floors sparkling clean with no sticky or dulling residue. This product is designed to be used at full strength as packaged. There is no need to rinse this product.

HOW & WHY R2X HARD SURFACES FLOORING CLEANER WORKS

While other cleaners can clean with varying degrees of success, they may leave behind a residue. This residue can act like a dirt magnet and attract soils and dirt, causing re-soiling of the area. **R2x Hard Surfaces Flooring Cleaner** is different. By combining specially selected nonionic and anionic surfactants with our unique fluorocarbon anti-soiling chemistry, **R2x Hard Surfaces Flooring Cleaner** is able to clean floors while leaving a protective treatment on the surface and eliminating the soil-attracting residues that other cleaners can leave behind. Because of this, it helps floors to stay cleaner, longer.

APPLICATIONS

R2x Hard Surfaces Flooring Cleaner Concentrate, when diluted, is effect in daily or weekly floor maintenance care. Always sweep or vacuum floor to remove loose dirt before cleaning. Lightly mist a 4' x 4' area of floor surface. Do not saturate floor. Using a back and forth motion, wipe mist off of the floor with a clean microfiber mop, cloth mop, or towel. Finish one area before moving to the next. When microfiber pad, mop, or towel becomes soiled replace it with a clean one.

This product is suitable only for hardwood floors with a polyurethane finish.

Do not use on unfinished/unsealed or waxed wooden floors.

Dilution Instructions:

1. Ensure cap is firmly affixed to pouring cap. Remove cap from measuring chamber (puncture foil seal if present)
2. Gently squeeze the base of the container and measure the desired amount into the measuring chamber
 - a. Heavy Soil: 2 oz Concentrate per 32oz Bottle
 - b. Moderate Soil: 1 oz Concentrate per 32oz Bottle
 - c. Light Soil: 1/2 oz Concentrate per 32oz Bottle
3. Pour the contents of the measured liquid into a 32 oz. trigger spray bottle. Add distilled water to the base of the neck. (approx. 30 oz.)
